

Implementation Reinforcement!

Free Sessions for Educators: Student Voice & Aspirations Strategies

The Quaglia Institute is offering educators an opportunity to share successes and ask questions to senior QISVA staff members regarding their efforts to implement the strategies learned in their Student Voice & Aspirations webinars.

Sometimes the best-laid implementation plans can go adrift in the reality of day-to-day school life. The best remedy for stalled implementation plans is to reach out and connect with people who can help refocus the process. It is important to share ideas and learn from other colleagues that may be going through similar challenges. Throughout the implementation process, it is critical to stay focused and build relationships with others who can provide reinforcement!

The Quaglia Institute will offer one-hour sessions three times throughout the year. These sessions will provide educators opportunities to reconnect with a Quaglia Institute senior staff member and other educators who are working toward creating student voice as a way of being in their schools. The goal of these sessions is to ask questions in a safe and nonjudgmental environment, listen and learn from one another, and inspire and support those who need some external encouragement.

The sessions will be open and free of charge to all Quaglia Institute schools/districts/networks around the world. Dates for 2023 will be emailed to all our sites at the beginning of the year.

Sessions will be informative and fun—we have no doubt that the new friendships and connections formed around the world will enhance your school's voice and aspirations journey.
